General Motors LLC  
30003 Fisher Brothers Rd  
Warren, Michigan 48093

Dear dexos® formulators,

General Motors is pleased to announce the forthcoming launch of the dexos1® Gen 4 engine oil specification, reflecting GM's latest performance requirements for gasoline engine lubricants. This specification will introduce both updated and new engine and bench test requirements aligned with the needs of GM's current and future product lines.

GM will provide additional program details which will include timelines, engine and bench test requirements, and registration instructions, in upcoming communications. Industry partners can expect future updates sent to the email address on file and documented on the dexos® eSubmission site.

We appreciate your continued collaboration and support as GM advances to the next generation of dexos® performance.

This communication is for informational purposes only and should not be understood to modify any existing agreement(s) or approval(s).

Sincerely,

*Alexandra Zack*

Alexandra Zack  
dexos, DEXRON, and dexcool Program Manager
